

7100 EPA WOOD FIREPLACE

**QUADRA-FIRE**

PURE PERFORMANCE

Cover: 7100 shown with rolling meadows front and satin nickel front and door trim

Above: 7100 shown with mission hill front and satin nickel door trim

## POWERFUL AND EFFICIENT

The 7100 is an energy-efficient heating powerhouse. Automatic Combustion Control provides hassle-free ignition, and the Quadra-Fire Four Point Burn System helps achieve long, clean burns. This rugged fireplace is also built to last, enduring accelerated lifecycle testing—once again proving, “Nothing Burns Like A Quad.”

The Quadra-Fire 7100 is the cleanest burning, easiest to operate and most durable EPA wood-burning fireplace available. And of course, performance comes standard.

Automatic Combustion Control and the Four-Point Burn System are integral technologies in the 7100.

### AUTOMATIC COMBUSTION CONTROL

Automatic Combustion Control (ACC) is an advanced heat-management technology from Quadra-Fire. ACC feeds the fire with air when it's needed most—for precision start-up and consistent, extended burns.

To learn more, scan the code to the right with your smartphone, or visit [quadrafire.com](http://quadrafire.com).

### FOUR-POINT BURN SYSTEM

The patented Quadra-Fire Four-Point Burn System produces intense rolling flames. Four combustion cycles extend the heat, enhance the fire and increase efficiency for durable, long-lasting performance.
